TWERK IT

"This Song is funkier than a Mosquitos Tweeter" - Jean Shy

CHI3 is a Hip-Hop/Rap group that formed in 2008, when artists "youngnicca_cal," "Definite," and "Mike on the Track" came together and began to mix their ideas of music. CHI3 has dropped 3 mixtapes: "No discussion," "Get Over it," and "Sex, Symbols & Soundz." CHI3 has collabed with many local artists, and has performed at talent shows, local parties, and open Mic Nights. After working hard for 2 years the group was discovered and well liked by "King Edward Music" in L.A. who signed them to the Label. CHI3 is currently in production with their first album "A New Me." The name CHI3 was given by the label because CHI3 are three young boys from Chicago; trying to make their dream come true.

Their debut Single release "Twerk It" was written by CHI3 Founder/Leader youngnicca_cal in collaboration with the two featured artists "Fabio" and "JayLove." youngnicca_cal also produced it. "Twerk It" is a hot, captivating Hip-Hop Track mixed by L.A. Producer "Dice," and mastered by award winning engineer Tom Baker at Precision Mastering in Hollywood, CA. The track will be released on August 14th, 2012.

About featured Artist Fabio: Freestyle rapping has always come natural to Fabio, who was born in Harvey, IL. Encouraged by his entire family who recognized his talent at a very early age, he often performed at family gatherings / re-unions. Fabio joined his first rap group D.C.U.B. in 2009. After departing from the group he has been working on building his solo career, and was signed to the King Edward Music Label at the end of 2011. "Twerk It" is his first release, and it is a sure thing that we will be hearing a lot more from this talented young Man.

About featured Artist JayLove: JayLove started singing in her local church choir at age four. She has such love for music that she's been singing ever since, and that's what she is passionate about. Greatly supported by her Mom she has performed at various talent shows at school, as well as at the Harold Washington Culture Center, in Chicago. She has been writing and recording with her friend youngnicca_cal since several years. "Twerk It" is the first "commercially released" Track that she performed on, as she continues her journey of making it to the Top.
